

SWISS QUALITY FOR HAPPY DOGS AND CATS

DELIPET.COM

MADE IN SWITZERLAND 

DELIPET AG

A Swiss family business

Our roots date back to 1933, when a local butcher laid the foundation for our expertise. Since 1999, Delipet has stood for high-quality pet nutrition – now successfully established in Switzerland and across Europe.

One partner – a complete range for your shelf

Delipet offers a comprehensive portfolio of premium products for dogs and cats. From complete food (semi-moist and wet) to snacks, chews and BARF – our range covers all key categories and enables an optimal assortment for retailers.

Swiss quality from the Basel region

Production takes place in Hölstein, while packaging is handled in Arisdorf. Here, we combine traditional craftsmanship with modern production technology – ensuring consistently high quality across our entire range.

Swiss fresh meat

Our meat primarily comes from Swiss livestock, renowned for its exceptional quality and freshness. We source beef, chicken, veal, lamb and turkey from trusted Swiss producers. More specialised proteins such as horse, rabbit and salmon are complemented by reliable suppliers from the EU. This careful selection ensures a diverse range of high-quality meat products that meet all requirements.

Private label solutions

In addition to our Delipet brand, we also develop customised private label products. From product development and packaging to delivery – we support our partners throughout the entire process.

Because cats deserve the best

Adult Sensitive Complete semi-moist complete food for cats
